<b>Problem</b> There is currently an approved CCR to upgrade all ClearCase installations to version 2.1 Atria has numerous patches on their web site. There are two of these patches that we need to be concerned with ( the JUMBO patch and the MVFS patch). The JUMBO patch represents a collection of all the patches and the MVFS patch affect the Multi Version File System. The versions of these two patches we currently have in house is outdated and needs to be upgraded.			
<b>Proposed Solution</b> Suggest we download the current version of the JUMBO and MVFS patches and use these during the upgrade. They should also be installed on ClearCase machines currently running Clearcase version 2.1
